Work Experience

FrightProps LLC - PoisonProps

Jan 2024 - Present

Web Developer

Remote

- Managing backend Magento operations while delivering impactful frontend feature changes, ensuring improved system performance and user engagement.
- Spearheading a complete platform modernization initiative, migrating the business from Magento 1 to a custom-built, high-performance Magento 2 environment.
- Architected the new Magento 2 infrastructure from the ground up, including server configuration (Linux, Apache), deployment, and migration to a scalable cloud environment.
- Currently leading the front-end rebuild using the Hyva theme, employing a modern tech stack (Tailwind CSS, Alpine.js) to create a fast, responsive, and mobile-first user experience.

FrightProps LLC

Dec 2017 - Dec 2023

Technical Support Specialist

Minneapolis, Minnesota

- Managed critical back-end data by maintaining product databases in Excel and leveraging the Magento platform to update site content.
- Oversaw internal IT operations, responsible for the full lifecycle of Windows workstations and the configuration and management of IoT devices.
- Served as the primary technical expert for customers, resolving 30+ daily inquiries and creating a library of support diagrams in Photoshop that were published to the Magento site, reducing recurring ticket volume.

FrightProps LLC

Dec 2016 - Dec 2017

Warehouse Associate

Minneapolis, Minnesota

- Picked and scanned products in the warehouse according to pick lists.
- Performed building maintenance tasks such as cleaning break rooms and organizing warehouse spaces.
- Occasionally answered customer support emails when needed.

Education

Connections Academy Minneapolis, Minnesota

Jun 2018

High School Diploma

Projects

Netflix Clone | <https://jack-netflix.netlify.app/>

Jun 2025

- Fully responsive, component-based replica of the Netflix UI, leveraging Vue.js to ensure pixel-perfect design.
- Dynamic data fetching via the TMDb API to seamlessly display movies, trailers, and detailed modals.

Freelancelly | <https://freelancelly.netlify.app/>

Jun 2025 - Present

- Comprehensive freelance management system designed to streamline project administration, financial tracking, and document processing for independent contractors and small businesses.
- Combines traditional project management capabilities with intelligent document processing using OCR technology to automatically extract data from invoices, receipts, and other business documents.
